

WORKSHOPS

Designed and customized by Educational Employees Credit Union, our workshops are for people of all ages. Along with the workshops listed below, we will also work with you to design a workshop tailored to the needs of the participants. From money management to investing and fraud protection, EECU has something for everyone!

MONEY WISE

An interactive workshop on the wise use of money and banking basics. This includes budgeting systems, principles of setting up a spending plan and tracking spending. Participants will enjoy the hands-on segment of this workshop, where they get to work in small groups to design a budget.

UNDERSTANDING CREDIT REPORTS AND SCORES

A fun and eye-opening workshop designed to teach the basics of credit, credit reports and credit scores. Credit myths are debunked and new skills are learned.

INVESTING FOR A BRIGHTER FUTURE

Half the battle of understanding investments is understanding the language. This workshop explains what the investors are saying in fun and simple terms. Included in the workshop is a practical exercise to demonstrate the ups and downs of the stock market. Some participants win, some lose, but all participants have fun!

FRAUD PREVENTION

Just as the title says, this workshop is designed to teach the participants how to protect themselves from financial fraud. The information is a real eye-opener to all who attend.

HOME BUYING

Topics covered include preparing for homeownership, understanding your financing options, evaluating your purchasing power, knowing how the escrow and loan closing processes work and so much more.
