

# FUN MONEY CLUB

**Sally the Squirrel, Larry the Lion and Terry the Turtle join Eddie the Owl in his treehouse on a warm summer day. It is the beginning of summer vacation and they need to find something fun to play.**

**Eddie suggests baseball, but how will they get the things they need to play? If they sell lemonade, they might earn enough money to buy the toys they need.**

**Larry goes to pick lemons  
from the tree in his backyard.**

**Meanwhile, Terry, Sally and Eddie set up the lemonade stand.**

**After a long day, they return to the treehouse to count up the money they have earned.**

**They have earned over twenty dollars,  
so they head out to the toy store to  
buy a bat, glove and a few baseballs.**

# WELCOME TO EECU

**Sally suggests they put their extra money into a savings account at Educational Employees Credit Union for next summer.**

**Playing baseball and having fun is a great way to spend a warm summer day. And saving their extra money at EECU means they will have more money the next time.**

# CONNECT THE DOTS

Connect the dots to see who is having tons of summer fun.

# WORD SEARCH

Sally needs your help finding some words that got mixed up with all these jumbled letters.

# FUN WITH MATH

Help Terry the Turtle figure out how much money he has.

$$1 \text{ ONE DOLLAR BILL} + 25\text{¢} + 10\text{¢} = \$ \underline{\quad} . \underline{\quad} \underline{\quad}$$

$$25\text{¢} + 5\text{¢} + 10\text{¢} + 25\text{¢} + 5\text{¢} = \$ \underline{\quad} . \underline{\quad} \underline{\quad}$$

$$5\text{¢} + 1\text{¢} + 10\text{¢} + 1 \text{ ONE DOLLAR BILL} = \$ \underline{\quad} . \underline{\quad} \underline{\quad}$$

$$25\text{¢} + 5\text{¢} + 10\text{¢} = \$ \underline{\quad} . \underline{\quad} \underline{\quad}$$

Now, add up the totals from above to give Terry his grand total.

\$          .
